

PDF995 (PDF writer for Windows 95 and above)

How to install and use PDF995

Download the pdf.zip file from the Marshall County Support page
<http://www.mcs.k12.tn.us> or pdf995 web page
<http://www.pdf995.com/download.html> to your hard drive.

After downloaded run the program and it will automatically set the program up on your system.

How to use PDF995 is very simple: Open any writing program (notepad , word , etc..) and write your document. Then click **File** from the menu and chose **Print**. From the list of printers chose **PDF995** then click **OK**.

Name your file and click Save.

That's it you just made a PDF file that can be read in Acrobat Reader.

P.S. The free version will have pop up ads.
But who cares its free and easy to use.
